Skills

Web Application Design
Advance
HTML5, JavaScript, CSS, Python, PHP, MySQL, Render

Graphics Software
Advance
Adobe Illustrator, Adobe Photoshop, Figma, Canva, BlackBox, Adobe Dreamweaver

Cyber Security
Intermediate
Kali Linux, Burp Suite, Wireshark, Nmap, Metasploit, OSINET Framework, Reverse Shell, Steganography

Software Development
Advance
Android Studio, PostmanAPI, Arduino IDE

Career Objective

Computer Science & Engineering student specializing in **Front-End Development and Web Design**, with a strong foundation in **Cyber Security** and hands-on exposure to **Machine Learning**. Experienced in building responsive, user-friendly interfaces using HTML5, CSS, and JavaScript, backed by real-world projects including a live cybersecurity learning platform and a full-stack student management system. Currently expanding into modern front-end frameworks (React, Next.js) and design-driven development.

Educational Background

Notre Dame University Bangladesh — Bachelor's in CSE
Dhaka, Bangladesh — September 2022 – Present

Government Laboratory High School & Collage — H.S.C. • 5.00
Group - Science — 2019 – 2021

Motijheel Govt. Boys High School — SSC • 4.78
Group - Science — 2009 – 2019

Experience

NDUB CSE FEST'26 — Dhaka, Bangladesh
Head of Technical Team — May 2026
Led technical operations for **NDUB IUPC-2026**, coordinating with **Shohoz Coding** and backend IT teams to prepare the contest environment. Set up competition infrastructure and led volunteer coordination for a field of **86 participating teams**.

Notre Dame University Bangladesh Computer Club — Dhaka, Bangladesh
Technology & Creative Design Secretary — January 2023 – July 2026
Designed digital visuals and social media branding for university-wide events, and built responsive web interfaces using HTML/CSS over 2+ years with the Computer Club.

Mini Easel — Kington, England
Junior Graphics Designer (Freelance) — October 2025 – November 2025
Designed logos, printed banners, and vector artwork for client projects using Adobe Illustrator and Photoshop. Delivered brand-focused visual assets in a remote, fast-paced agency environment

Interests

Programming Languages
C++, Java, C, Javascript, Shell, Bash, python, MySQL, PHP

Ethical Hacking
Social Engineering, Phishing, Sniffing & Spoofing, MITM, Brute Force, OSINT, Info Gathering, Pen testing, Payload Development

Digital Art
Adobe Illustrator, Adobe Photoshop, Figma, Canva

Projects

NDUBCC Club Management System July 2025 – Present
Full-Stack Web Application

Built a web application enabling students and admins to streamline club operations, event management, and member administration. Implemented features including event RSVP registration and check-in, membership and committee ID card generation, certificate generation, Role-Based Access Control, administrative dashboards, and real-time event check-in updates using Cloudflare Durable Objects and WebSocket.

Student Performance Prediction & Academic Advisory June 2026 – Present
Live - *Machine Learning, Explainable AI (XAI)*

Built an ML-powered system that predicts student academic performance and generates actionable improvement suggestions using SHAP/LIME for explainability.

Deployed live with a human-in-the-loop feedback mechanism for continuous model refinement

SpyderCEHub November 2023 – Present
Live - *Web Development, GitHub API*

Built a cybersecurity learning platform covering recon, exploitation, web hacking, and privilege escalation, with a resource fetcher built on the GitHub API

Failover Network Using Redundant Paths May 2025
Networking & Cyber Security, Cisco, STP, HSRP

Designed a highly available network topology implementing Spanning Tree Protocol (STP) and Hot Standby Router Protocol (HSRP) for automatic failover.

Documented architecture and configuration in a full technical report

Egg Drop Game February 2026 – Present
Live - *C++, OpenGL, Glut*

Built a 2D arcade game with real-time collision detection and lives management using OpenGL/GLUT

Flappy Bird Game September 2023
A Java-based GUI project where users can play by clicking a Play button, opening a new game window.

Certifications

Certification of Mobile App Development March 2025
EDGE project of Bangladesh, Computer Council, ICT Division

Certificate of Appreciation — Lead Organizer, NDUB CSE FEST 2026 May 2026
Department of CSE, Notre Dame University Bangladesh, in association with NDUB Computer Club
